Alabama solar installation training

Overview

What is the solar Instructor Training Network?

The Solar Instructor Training Network developed a robust local training network across the United States. During its term, the program partnered with more than 400 community colleges, labor training centers, and technical high schools.
What is a solar training network?

The Solar Training Network will be guided by a Solar Jobs Strategy Commission consisting of solar industry representatives, workforce development subject matter experts, diversity group leaders, and other key industry stakeholders.

What is solar ready vets®?

Solar Ready Vets® is a separate training program available specifically to military personnel on select military bases who are in the process of retiring and transitioning to civilian life.
