

Alabama solar installers near me

Overview

See our top picks for the 7 best solar installers in Alabama based on reviews from experts and homeowners who already got solar in Alabama.

How many solar installers are there in Alabama?

Solar adoption in Alabama has been unusually slow, which has led to just eight installers opening up throughout the entire state. Despite there being such a small number of companies, choosing the best one for your solar project and budget is still a time-consuming process that requires a lot of time and energy for research.

What companies do you recommend for solar in Alabama?

Here are the top companies we recommend for solar in Alabama: Go Solar Power conducts each and every client engagement with Honesty, Integrity, Reliability, and a “Do the Right Thing” mentality. This culture of excellence permeates the actions and attitudes of our Team Members. Our parent company, Service Experts, is th.

Is Alabama a good place to install solar panels?

Being located in the deep south, Alabama experiences mild winters and harsh summers, with an abundance of sunny days. On average, Alabama has 213 sunny days per year and about 5 peak sun hours each day. All that sun means solar panels can generate more power here than in other parts of the country, meaning you can install fewer solar panels.

How do I choose a solar panel installation company in Alabama?

When looking for a solar panel installation company in Alabama there are a lot of criteria to consider before deciding on one. Homeowners should start out by going online to read customer reviews of each company being considered on websites like Yelp and the Better Business Bureau. Consider asking friends and family for references as well.

How do I become a solar installer in Alabama?

Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Alabama, those who wish to become solar installers can obtain an Electrical Contractor or Journeyman Electrician's license.

How much does a solar panel system cost in Alabama?

The average cost of a solar panel system in Alabama is around \$42,780 before any benefit programs. This total assumes that you spend the local average of around \$3.72 per watt on your equipment and need an 11.5 kilowatt (kW) PV system to fully offset your above-average electricity consumption. 1
