Average solar panel price

Overview

The average cost of solar panels ranges from $17,350–$38,000. This price range includes hardware, installation, and soft costs, but it does not account for additional components like solar batteries. Tax credits, rebates, and incentives can offset or lower the total cost of solar.

The average cost of solar panels ranges from $17,350–$38,000. This price range includes hardware, installation, and soft costs, but it does not account for additional components like solar batteries. Tax credits, rebates, and incentives can offset or lower the total cost of solar.

Solar panels generate "free" electricity, but installing a system still costs money. A typical American household needs a 10-kilowatt (kW) system to adequately power their home, which costs $28,241 in 2025. That price effectively drops to $19,873 after considering the full federal solar tax credit.

Today's premium monocrystalline solar panels typically cost between 30 and 50 cents per Watt, putting the price of a single 400-watt solar panel between $120 to $200, depending on how you buy it. Less efficient polycrystalline panels are typically cheaper at $0.25 per Watt. The cost of a solar.

Solar panel costs range from $16,600 to $20,500 for the average 6.5 kW system, but prices can vary from as little as $7,700 for smaller solar systems to upward of $34,700 for larger systems. To find the most up-to-date solar panel costs in 2025, we compared research from the U.S. Department of.

Get solar power system costs based on your location, roof, power usage, and current local offers. Published: August 2025 Solar panels cost about $21,816 on average when purchased with cash or $26,004 when purchased with a loan for a 7.2 kW system. While that price tag seems steep, the electricity.

Solar panels cost between $15,000 and $22,500 on average. Get custom quotes from the top installers in your area using the form below. Tori Addison is an editor who has worked in the digital marketing industry for over five years. Her experience includes communications and marketing work in the.

Solar panels cost $3.00 to $4.50 per watt installed on average, with homeowners spending about $3.75 per watt before factoring in available solar incentives. A 6- to 10-kW solar panel installation costs $12,600 to $31,500 after the 30% federal tax credit. Solar panel prices depend on the size. How much does a solar panel installation cost?

Solar panel installation costs vary by the installation company and project scope, making it challenging to pinpoint exactly how much you'll pay to have a pro install your solar panels. However, the U.S. Department of Energy estimates that installers add around $2.25 per watt to the cost of a solar panel installation.

How much do commercial solar panels cost?

Generally, installing solar panels on businesses costs a bit less per watt because the systems are larger, but the total costs will be higher. In 2025, the average cost for commercial solar panels is just about $2.00 per watt. There is a lot to consider when figuring out how much you'll spend on a solar installation.

How much does a solar panel cost per watt?

Comparatively, our team found an average cost per watt of $3.10 based on our survey responses. Note that system pricing can vary based on the solar panel and equipment brand, installer, location and more. The table below shows typical prices of solar panel systems ranging from 4 kW to 8 kW in size based on the SEIA cost figures.

How much does a solar system cost?

If you just need a few panels for a small do-it-yourself solar project, expect to pay around $200 to $350 per panel (between $0.80 and $1.40 per watt). Note: The table below doesn't include the cost of a solar storage battery, which can add anywhere from $7,000 to $18,000 to your total solar system costs.

How much does it cost to clean solar panels?

Solar panels require very little upkeep. If you're able to clean the solar panels yourself, the only maintenance cost will be the water used to hose them down. If you hire a professional to clean your solar panels, it will cost around $100 to $350, on average.

How much does a solar panel cost in New Mexico?

Our survey data also found that New Mexico has some of the cheapest solar panel costs in the U.S., with an average price of $9,996 after using the federal solar tax credit. Solar panel pricing is the most expensive in Massachusetts, where estimated costs are around $18,900 after the tax credit.

Average solar panel price

Solar Panel Cost Per Watt
