Best solar company awards

Overview

How do I find the best solar company?

To help calculate the best solar company ranking, the Forbes Home editorial team analyzed 24 solar companies, with each company's star rating determined by evaluating a variety of metrics, including years in business, panel variety offered, the results of our NPS survey and more.

How do I choose a solar company?

Pick a solar installer and finalize your design: A good solar company should help you create a custom design within your budget. They'll help set your expectations on how much electricity your home needs, what your panels can produce and what you can save as well as how long installation might cost.

Is Tesla a good solar company?

The company, which serves the East Coast primarily, offers free consultations and custom solar designs to help solar customers get the best system for their homes. Tesla may be more well-known for cars, but the company also has a sizable solar business.

Is solar a good investment?

Going solar can be a great choice for many, but a better choice for some. Here are some factors that can make solar a bit more of a solid investment: You live in a particularly sunny area: Solar panels will still produce some electricity on cloudy days, but they'll work much better on a sunny day.

Is Sunrun a good solar company?

"Sunrun is an excellent choice for the Platinum Solar and Preferred Partner Awards." As part of its selection process, Best Company said that Sunrun stood out because of its proven expertise, innovative partnerships, cutting-edge technology, flexible financing options, commitment to sustainability, comprehensive customer support, and stability.

Is Palmetto solar a good solar company?

Learn more: Sunrun Solar review Palmetto Solar has 15 years of experience in the solar industry and serves communities in more than a dozen U.S. states. The company offers a variety of solar panels, all of which have an efficiency rating greater than 19.8%.
