The Aquapro AP300SP Solar Pump is the perfect solar powered pump designed to operate your small backyard water feature such as a bird bath. Built with a DC current and a brush-less highly efficient motor, the AP300SP comes with an easy-turn flow adjuster to manage the perfect flow for your water feature with a fountain kit included.

What is the best pond & fountain pump?

The Aquapro AP2400F pond and fountain pump is perfect for basic ponds and water features of up to 1500 litres of fresh or salt water with few or no fish. Choose between the included bell or daisy fountain nozzles for beautiful water fountain effects with complete control of your flow thanks to the in-built flow adjuster.

Can a solar pump run in a plastic tub?

If you had a plastic container like the Aquapro 910 Round Feature Poly Pond, the Solar pump would have no problem operating in this tub size. The rule is that the tub can't be higher than the mouth of the pump outlet.

Where can I find Aquapro ap1360sp solar pump & panel kit?

Bunnings Workshop is an online community for D.I.Y. and gardening discussion, advice and inspiration. Find Aquapro AP1360SP Solar Pump And Panel Kit at Bunnings. Visit your local store for the widest range of products.

How does a solar power pump work?

for outdoor use, and is powered by a solar panel. In order to make the pump work by solar energy, the solar panel needs to be placed in direct sunlight with its solar cells facing the sun as much as possible. The performance of the pump depends on the sunlight intensity and the incident angle at which sunlight strikes the panel surface. The
