Overview

How to start a solar business?

Content Writer/Blogger You can tap into the solar business through your writing skills by starting a blog about solar energy and monetizing it through ads. As people become fascinated by the possibility of solar, they turn to search engines like Google to answer their questions.

Is solar energy a good choice for your business?

Choosing the solar energy industry as the path for your business is a wise and responsible choice. Not only is it a growing industry with tons of room for success, but it also contributes to a cleaner, more sustainable environment. Before you jump right into it, though, let's talk about one thing: goal setting.

What is the solar industry?

The solar industry extends far beyond rooftop solar panels for residential customers. Increasingly, businesses are adopting roof-mounted or ground-mounted solar arrays for power production. These facilities may power the business itself, or they may be designed for selling electricity to the regional grid.

Do you need a salesperson for a solar business?

Salespeople are the backbone of most solar businesses. Regardless of your niche, chances are that someone on your team is making at least part of their paycheck knocking on doors and making phone calls. When seeking out a salesperson, here are three elements to consider when vetting your candidate pool:.

Who can start a solar photography business?

Anyone with photography skills can start a solar photography business – your only investment needs to be a good quality camera. Solar dealers and distributors require high-quality photographic content to enable them to sell

their wares, so reach out to members of the industry to offer your skills.
