

Buy and install solar panels

Overview

Should you buy solar panels from a local installer?

By easily comparing quotes from local installers, homeowners have access to a tremendous variety of solar panels, inverters, and batteries. While it is possible for homeowners to buy solar panels themselves, either used or directly from the manufacturer, there are a few reasons to buy them through an installer.

Can you buy solar panels yourself?

While it is possible for homeowners to buy solar panels themselves, either used or directly from the manufacturer, there are a few reasons to buy them through an installer. Design a custom solar system and compare quotes online. The back way into buying solar panels is buying a house that already has solar panels installed.

Where can I buy solar panels?

Find the best price from solar installers in your area. [Where Can You Buy Solar Panels?](#)

There are three ways to purchase solar panels: Home and business owners typically purchase solar panels through solar companies, which are certified to deal and install products from top manufacturers.

Where should a solar power system be installed?

Regardless of the type of solar panel used, the most ideal setup for a solar power system is installing solar panels on a roof — in a region with long peak sunlight hours — with the panels facing south (for homes in the Northern Hemisphere). Investing in a solar power system is easier today than ever before.

How do I get a solar installation?

Fill out the online form, and a trusted independent installer will call you to schedule a consultation. The solar specialist will review suggestions for your home based on square footage, power needs and appliance wattage to ensure a whole-home solution.

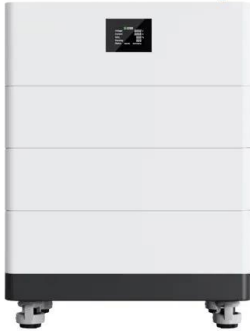

Can I install solar panels myself?

Solar panels can be purchased directly from the manufacturer, or through an installer. If you're handy and capable with electrical work, you may be able to install solar panels yourself, but you'll likely need permits and other arrangements with your local electricity provider in order to tie your system into the electrical grid.
