Overview

Can you buy a home with solar panels?

If the seller of your soon-to-be home outright owns the solar panels, that's ideal; the panels will likely only affect the home's price. If you buy a home with leased solar panels, though, you'll want to discuss any lease terms and monthly fees associated with the system. 6. What's the difference between solar loans and financing?

.

Is buying a home with solar panels the right move?

Currently, solar power accounts for just 3.9 percent of total U.S. electricity generation, but that number is rapidly growing. So is buying a home with solar panels the right move for you?

Well, that depends on some key factors.

Should you buy a solar home if you're not the original owner?

Solar will save almost all homeowners money, even if you're not the original owner. You might encounter one of four solar home scenarios when you're shopping for a house: fully-owned solar panels, leased solar panels, solar panels purchased with a solar loan, and PACE (Property Assessed Clean Energy) financed solar panels.

Should I buy a solar home if I can't afford a loan?

Paying that loan is money that can't go to your mortgage, meaning the mortgage a bank approves could be lower than the amount you need. If you cannot afford both a loan and mortgage payment, skip the solar home. Leased solar panels are the worst-case scenario when buying a house with solar panels.

Does buying a house with solar panels affect a mortgage?

Buying a house with solar panels can affect the way you get a mortgage. In particular, matters like owning or leasing the panels and how the panels were financed might affect your mortgage. If the seller of your soon-to-be home outright owns the solar panels, that's ideal; the panels will likely only affect the home's price.

Should you buy a home with a third-party Solar System?

When buying a house with solar panels, homebuyers should ask whether the solar system is owned outright by the seller or whether they would have to take over a lease' (SEIA vice president of markets and research, Justin Baca).
