# Can i install solar panels myself

## Overview

Can you install solar panels yourself?

While installing solar panels yourself may seem daunting at first, with the right knowledge and tools, it certainly is a manageable project. DIY solar requires some construction skills, knowledge of power tools, and a good understanding of home improvement and electrical safety.

Do you need an electrician to install solar panels?

Most states allow homeowners to install solar panels themselves, provided they obtain proper permits, follow local building codes, and pass required inspections. However, any electrical connections to the power grid must typically be completed by a licensed electrician.

How much does it cost to install solar panels?

To give you a general idea, if you compare the cost of the equipment by itself to the cost of a turn-key installation, it's about $1.75 per watt. If you are looking at a typical size 6 kW residential system, that equates to a savings of around $10,500. Learn more: The Cost of Installing Solar Panel Systems.

Should you install solar panels without a permit?

Don't skip this crucial step – installing solar panels without proper permits can result in fines, mandatory system removal, or complications when selling your home. Many localities also require certification of your installation by a licensed electrician, even if you do the main installation work yourself.

Should you install solar power?

Not only can you save the amount of your current electric bill by installing solar, but you're also protecting yourself from future increases in electric rates. This is because you're buying your next 25 years of electricity at a lower rate than you currently pay.

How long does it take to install solar panels?

The time it takes to install solar panels yourself will depend on a variety of factors, including the size of your system and your level of experience. Generally, a DIY solar panel installation can take anywhere from a few days to a few weeks. It really depends on how much time you dedicate to the project.
