## Overview

---

### Who is Canadian Solar?

Dr. Shawn Qu, Chairman, President and Chief Executive Officer founded Canadian Solar (NASDAQ: CSIQ) in 2001 in Canada, with a bold mission: to foster sustainable development and to create a better and cleaner earth for future generations by bringing electricity powered by the sun to millions of people worldwide.

### Where is Canadian Solar made?

Canadian Solar operates production facilities in the United States, Canada, China, Indonesia, Vietnam and Brazil, where it manufactures ingots, wafers, solar cells, solar PV modules, solar power systems, and other solar products.

### Is Canadian Solar a sustainable company?

**2024 SUSTAINABILITY REPORT** As a global leading renewable energy company, Canadian Solar aims to power the world with solar energy and to create a cleaner Earth for future generations. From 2017 to 2024, Canadian Solar achieved reductions in GHG emissions, energy, water, and waste intensities of 54%, 37%, 75%, and 53%, respectively.

### Is Canadian Solar a bankable company?

Canadian Solar is one of the most bankable companies in the solar and renewable energy industry, having been publicly listed on the NASDAQ since 2006. Over the past 23 years, Canadian Solar has successfully delivered over 125 GW of premium quality, solar photovoltaic modules to customers.

### Does Canadian Solar own Recurrent Energy?

The company acquired the solar developer Recurrent Energy from Sharp Corporation for approximately \$265 million in 2015. In October 2017, Canadian Solar listed the Canadian Solar Infrastructure Fund Inc. (CFSI) on the Tokyo Stock Exchange.

How many solar panels will Canadian Solar produce a day?

In June 2023, Canadian Solar announced plans to construct its first U.S. manufacturing plant in Mesquite, Texas. The \$250 million plant, which will employ up to 1,500 people, is designed to produce 20,000 solar panels a day, totaling 5 GW of annual production capacity.
