Cheapest containerized renewable power supplier in Spain

Overview

Why should you choose the cheapest electricity supplier in Spain?

That's why it pays to go with the cheapest supplier, if you don't want to be price gouged on your electricity costs. Many people, and particularly non-Spaniards, however, seem to think they have to call every electricity supplier in Spain and find out what their current rates are before they decide who to sign up with.

How do I find the cheapest electricity tariffs in Spain?

To find the cheapest electricity tariffs in Spain or, in particular, in your area, all you have to do is to go to the Comisión Nacional de la Energía's (CNE) website (National Energy Commission in English), and compare rates for each supplier.

How do I choose the right electricity supplier in Spain?

There are several factors that need to be considered when choosing the right electricity supplier in Spain. Spanish electricity costs are split into fixed and variable costs – both need to be considered when making your decision. Fixed costs are set amounts which must be paid each month regardless of how much electricity you use. These include:.

Which companies supply electricity in Spain?

As a homeowner or tenant, you will only need to deal with the comercializadoras or the electricity companies. Some of the more prominent names that dominate the market include Iberdrola, Gas Natural Fenosa and Grupo Endesa which supply nearly 50% of all electricity in Spain.

How to save on electricity costs in Spain?

A bilateral contract with any distributor. With over 100 different tariffs available in Spain, the best way to save on electricity costs is to do your research and find the cheapest, most suitable tariff for you. For example, you

can choose a tariff based on your lifestyle e.g. one which has a different rate on weekends than during the week.

How do I switch energy suppliers in Spain?

You may be able to switch without penalty if your contract is near its end. Use an online comparison tool to compare prices, plans, and offers from different energy suppliers in Spain. Be sure to look at both the unit price and any additional fees or discounts. After comparing options, choose a supplier that fits your budget and needs.
