

Cheapest mobile solar container supplier in New Zealand

Overview

What is LZY mobile solar container system?

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid areas, construction sites & emergency power. Get a quote today!.

How much does a ultra Solar System cost?

Limited Time Our new ULTRA off grid solar systems using the latest technology are made in New Zealand and priced from \$15,995 inc GST. The base system sizes below are a guideline only. Additional panels and battery modules can be added to each base system depending on your daily loads and the sunshine hours for your region.

What is a LZY mobile solar power system?

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation.

What is a plug n free solar system?

Designed, developed and made in New Zealand this doesn't only makes off-grid installations cheaper and faster, this opens a door for complete new applications of solar power. The "Plug 'n' Free" system brings power everywhere you find a sun exposed flat surface. It is built rock solid and solves all problems of components integration.

Do I need solar panels in New Zealand?

It will suit a tiny home, sleepout or cabin with basic power requirements. It may also suit summer-only weekend stays, during good weather. In some parts of New Zealand you will need additional solar panels. This will depend on

the sunshine hours for your area and your power-use patterns.

What makes LZY solar containers different?

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions. Our systems are faster to deploy, generate more power than traditional solutions, and integrate seamlessly with existing infrastructure. How long does it take to manufacture and deliver a mobile PV container?
