What is karmod modular container building?

Karmod modular container buildings was preferred in the construction site complex where the workers and technical team to work in the foundation excavation will be accommodated. The containers for construction sites, consisting of a total of 810 square meters, are the first workers' complex of the airport project.

Why should we use solar power in Nigeria?

Nigeria is blessed with so much sunshine, so why not exploit it. Solar power systems use energy from the sun to save people money and resources. The solar panels are made of silicon which is a resource that grows on trees. Without these panels, our planet will be overpopulated with pollutants that harm us in many ways.
