

# Clean solar near me reviews

## Overview

---

Can a solar panel be cleaned 'near me'?

If you're looking for solar panel cleaning 'near me', our local service includes any roof panels within a 60ft (20 metre) range from the ground, provided there's a clean line of sight. We can work at an angle and over ledges or porches with our extendable poles. Essentially, if you can stand and point at the roof panel, we can normally clean it.

Is clean solar a good company?

Despite several attempts. Overall, Clean Solar pays less than half of the claims for production guarantees (data provided by their CEO through BBB). For the few who go through the painful claim process, Clean Solar responds with exceptions such as environmental changes and customers end up victims of their misleading sales tactics.

Is yes solar a good company to install solar panels?

Timothy M. said "We are very happy with how our solar panels look, the reasonable price, and Yes Solar team's knowledge and customer service. They have a very fast response time and were willing. " read more Eric L. said "This is a great locally owned company to install your solar panels.

Does clean solar have a business license?

Yelp confirmed a business or employee license. Clean Solar Honored as a Top Solar Installer in 2023! " Marcia Bever was our point person and she was fantastic (as were every one else we interacted with). " in 42 reviews "

Why should you choose clean solar?

Clean Solar is at the cutting edge of all the great financing options today. We are dispelling the myth that solar is expensive. We have options to go solar with no money down. With every residential installation, Clean Solar makes a charitable donation to support a local charity. Call us today!.

Should you go solar with your home's energy?

Going solar with your home's energy is expensive, but, in most states, the panels will pay for themselves by reducing your electric bills. Solar panels don't produce greenhouse gasses or other pollutants, meaning you can feel good about using this renewable energy source to power your home.
