## Overview

---

Is Vietnam ready for a competitive bidding mechanism for solar energy?

Vietnam is now developing a competitive bidding mechanism for solar energy to improve grid efficiency, promote competition, and ensure a stable energy supply, but it's currently in the works and hasn't been implemented yet. As such, Vietnam has been in a transition phase since the end of the FiT policy.

What is collapsible solar container?

Collapsible solar Container hit the headlines at recent trade fairs with the latest generation of portable solar technology combining standard shipping containers and collapsible solar panels for rapid deployment, end-to-end scenario flexibility, and intelligent management systems.

What is a foldable solar container?

Foldable solar containers merge two mature technologies: lightweight foldable solar panels and ISO shipping containers. The systems, CDS Solar states, are standard containers with inverters, controllers, batteries, and hinged panel arrays built into them, which open while in use and fold up into a compact form to ship.
