

Commercial solar lighting outdoor systems

Overview

With over 30 years of combined experience and over 5000 commercial solar installations nationwide, you can trust Greenshine New Energy to brighten your city with quality outdoor solar light solutions. There's.

Who provides commercial LED solar lights?

Our team provides commercial LED solar lights and systems that deliver the design, control, security, LED fixtures, cost savings, and renewable solar power you need for your applications. To learn more about the various LED solar lighting systems we offer at SEPCO, give us a call today at 772.220.6615 or complete our online form to request a quote.

Are commercial outdoor solar lights a good choice?

Get off to a bright start with commercial outdoor solar lights from Greenshine. When it comes to outdoor commercial solar lights, solar LED lights are your #1 option. Commercial outdoor solar street lights are a perfect combination of environmentally friendly, green technology paired with energy-efficient LED fixtures for maximum cost-effectiveness.

How does a commercial outdoor light work?

Sensors in the electrical components of the light determine when the sun has dropped below the horizon. This tells the electrical management system to change the flow of energy from the battery to the light fixture. Be sure to read our commercial outdoor lighting guide for more information.

What is a heavy duty led street lighting solar system?

Heavy duty LED solar street lighting systems, such as the MAPPS™ Solar Area Light series, are designed for outdoor area lighting applications where AC power is not available. These systems, in partnership with RAB – a leading LED lighting manufacturer, offer outstanding efficiency coupled with a robust design.

Why should you choose Sels solar?

To meet this new demand for your city or organization, SELS Solar provides functional, durable, and modern lighting solutions. Products like our in-ground solar LED lights and integrated solar lighting systems brightly light up your parks and recreation areas with reliable and clean light all through the night.

Do Sels solar lights need to be connected to wires?

SELS Solar's smart, energy-efficient, off-grid solar outdoor LED lights and charging stations don't need to be connected to wires – eliminating the strain of costly, intrusive, and disruptive traditional lighting choices.
