What is solarreviews?

SolarReviews has both an extensive collection of unbiased consumer reviews of U.S. solar companies and an expert ranking system to help you identify the best solar panel installation companies in your area. Since 2013, our in-house solar experts and engineers have built one of the most accurate solar calculators available.

Why should I choose a local solar installer?

SolarReviews data, from tens of thousands of reviews of solar companies, shows that local, family-owned solar companies record far higher levels of client satisfaction. This is why we recommend going with a company that's local to your area rather than a nationwide installer. How can I find solar installers near me?

.

How do I get a price estimate for solar?

Use our calculator to quickly get price cost estimates for solar tailored to your home. SolarReviews has both an extensive collection of unbiased consumer reviews of U.S. solar companies and an expert ranking system to help you identify the best solar panel installation companies in your area.

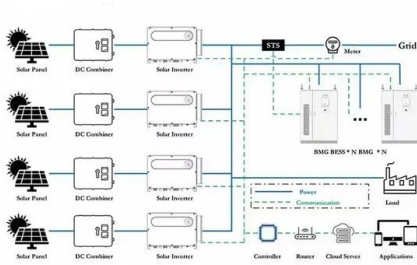

How much does a home solar system cost?

The average cost of a home solar system in the U.S. is around \$16,129 or \$14 per panel, based on responses to our 2025 survey of solar customers nationwide. Solar incentives such as the 30% federal tax credit, state tax credits, and local rebate programs can help reduce the cost of a home solar system.
