

# Complete off grid solar systems for sale

**TAX FREE**

## Product Model

HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

## Dimensions

1600\*1280\*2200mm  
1600\*1200\*2000mm

## Rated Battery Capacity

215KWH/115KWH

## Battery Cooling Method

Air Cooled/Liquid Cooled

## Overview

---

What is a DIY off-grid solar kit?

Deliver power to remote locations with our DIY off-grid solar kits. These kits contain the components you need to install a fully self-sufficient off-grid solar system, including solar panels, an off-grid inverter, and mounting materials. We'll also customize your kit with a battery bank sized to meet your storage needs.

How much does an off-grid solar kit cost?

Every off grid solar kit includes premium components like high-efficiency solar panels, MPPT charge controllers, and heavy-duty inverters—all pre-matched for optimal performance. Our solar kits are priced to make off-grid living accessible, starting at just \$2,666.00.

What are off-grid solar systems?

Off-grid solar systems are composed of solar batteries, solar panels, back-up generators, and off-grid inverters for homeowners in Victoria, who are living too far from the grid or aiming to be entirely independent of energy companies.

What is the cost of an off-grid solar system?

An off-grid solar power system costs at least \$40,000 for a typical Australian home to provide almost the same convenience as being on-grid. Why so much?

.

What is off-grid solar?

Off-grid solar refers to a solar power system that operates independently of the electricity grid. Unlike grid-tied systems, which are connected to the grid and can import or export electricity at any time, off-grid systems are entirely

self-sufficient.

How do I design an off-grid Solar System?

Designing an off-grid solar system can be complex. There are three factors to consider when sizing for off-grid solar: The most common off-grid system configurations range from 5kW to 21kW. However, energy usage varies for every household, so the best approach is to design a custom off-grid solar kit based on your specific energy usage patterns.
