Ketan is here to help you find exactly what you need. Containerized.

Panama enjoys 2,200+ annual sunshine hours - enough to power every home twice over. Yet 37% of businesses still experience monthly blackouts according to 2024 energy ministry reports. Why does a country bathing in tropical sunlight rely on imported diesel for 28% of its electricity?

The answer lies.

With 62% of electricity still generated from fossil fuels in 2023, the country's staring down climate commitments made at last year's COP28. But here's the kicker - their tropical location gives them world-class solar potential, yet daily cloud cover variations cause 25% energy production swings.
