Our engineers will find you the lowest levelized cost of energy (LCOE) and will help ensure your project is delivered on time, on budget and with the highest performance level after your project is complete. Canadian Solar can tailor its Turnkey EPC Services offering to meet any need its project.

Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power.

Get the best value in Canada with bulk shipping containers of 700W solar power panels, ideal for solar installers and distributors handling large-scale projects. These high-efficiency solar panels are built for exceptional quality, durability, and long-term reliability in all Canadian weather.

However, prices aren't always simple—they vary depending on size, materials, certifications, and location. Let's break down what really goes into the cost and whether it's worth your money. The final cost of a solar container system is more than putting panels in a box. This is what you're really.

4kW solar kit Canadian 450 TOPcon black module CS6.1-54TM-450, Enphase hybrid microinverter, combiner, mounting, monitoring, accessories and permit plan. Order online or PHONE 888-498-3331 WANT A SOLAR PANEL SYSTEM AT THE LOWEST COST?

START. 5.4kW solar kit Canadian 450 TOPcon black module. Who is solar EPC?

Solar EPC has been experiencing rapid growth, and it is said to be one of the fastest-growing solar installation companies in Canada. They provide a complete range of services including project engineering, procurement, and construction work all over the world.

How does solar EPC conduct business?

From employees to vendors to business partners, Solar EPC conducts business fairly, impartially and ethically. Our goal is to be our customers' preferred supplier into each successive project. To reach our goal we must deliver an excellent quality product, on time, every time.

Is Canadian Solar a mono-PERC or multi-PERC?

In August of 2019, all of Canadian Solar's cell capacity was upgraded to mono-PERC or multi-PERC. On the module product side, Canadian Solar has been producing half-cut cell modules (Ku-series), bifacial modules (BiKu), multi-bus bar (MBB), 166mm wafers (HiKu and BiHiKu) and shingled modules (HiDM).

What is included in a solar kit?

Solar kits include Canadian solar panels with 25 year warranty, grid-tied AC Inverter, rooftop mounting racks, wiring, cables, hardware, step-by-step instructions and permit-ready plan. Click on any kit to view parts list, specifications and options for ground mounting, storage battery or Pro installation.

Why do you need an EPC?

Our EPC will deliver the best LCOE, incredible performance and all in excellent quality, and help to ensure your project is delivered on time, on budget and with the high performance level.

Does MT Solar have battery storage & backup options?

Contact us for battery storage & backup options. MT Solar uses steel beams

for vertical supports instead of galvanized pipes for our best looking ground mount solar system. Multi-pole and self-ballasting mount also available. Prices listed are MSRP. Contact us for applicable discounts and lowest price.
