Container solar kit quotation in Australia 2026

Overview

What is a shipping container solar solution?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system.

Who makes shipping container solar panels?

Fleet Containers ensures the highest quality in our shipping container solar panel installations. We work with trusted suppliers and manufacturers who adhere to industry standards and provide reliable and efficient solar panels.

Can solar power a shipping container?

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions. The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and efficient operation installed within.

How many solar panels can be installed in a shipping container?

These are configured as 3 phase systems inside an air-conditioned and insulated shipping container. Containerised systems are manufactured and tested at RPC to reduce installation time and cost. You would need a very large roof or ground mount frames to accommodate up to 288 solar panels.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

Why should you choose shipping container solar panels?

Versatility and Mobility: Shipping container solar panels offer flexibility and mobility. You can easily move and transport the container with the solar panel system intact, making it suitable for temporary or mobile applications.

Durability and Low Maintenance: Solar panels are designed to be durable and require minimal maintenance.
