

# **Container solar mounting project ROI in South Africa**

## Overview

---

Are solar projects a good investment in South Africa?

While the upfront investment varies based on project size and location, the potential returns far outweigh the initial costs, especially considering South Africa's ample UV rays and favourable regulatory environment. Calculating the return on investment (ROI) is where the real magic of solar projects comes into play.

What makes our containerised solar power generation units special?

“What makes our containerised solar power generation units special,” says Tobias, “is our use of international quality engineering and components, while still producing local content that allows us to offer a price advantage and local support. We pride ourselves that our energy solutions are made in Africa for Africa.”.

What is sustainsolar – a containerised solar power solution?

Sustainable Power Generation (Pty) Ltd recently introduced its new containerised solar power solution – SustainSolar – for the African market. The South African-based clean Developing economies face numerous challenges regarding reliable electricity supply, especially in rural areas, which require unique, inventive responses.

Does sustainsolar have a retractable mounting system?

In addition to conventional fixed mounting systems, SustainSolar containers can be equipped with the innovative EXOrac retractable mounting system. Engineered to simplify and accelerate solar activations, EXOrac makes installation simple, up to 16-times faster than any existing system available today.
