

Container solar mounting quotation in Indonesia 2025

Overview

What is a quota for rooftop solar PV in Indonesia?

Under the new regulatory regime, IUPTLU holders must establish a five-year quota for development of Rooftop Solar PV systems in Indonesia. The quota must take into account (i) the national energy policy, (ii) the IUPTLU holder's electricity supply business plan, and (iii) the reliability of the IUPTLU holder's electricity network.

Do I need to prepare a quota for new rooftop solar systems?

The requirement to prepare a quota for new Rooftop Solar Systems also applies to PT PLN (Persero) (PLN – the national electricity company) within its national Business Area.

How many MW are available for rooftop solar installations in 2025?

In 2025, the available quota for rooftop solar installations totals 283 megawatts (MW), with 225 MW allocated for the Java, Madura, and Bali region; 25 MW for Sumatra; 30 MW for Kalimantan; and 3 MW for Sulawesi, Maluku, Papua, and Nusa Tenggara. In addition, around 250 MW of unused quota from 2024 remains available.

Container solar mounting quotation in Indonesia 2025

[Galvanized Container Strut Mount \(CSM\) Roof Brackets](#)
