I have the opportunity to buy excess solar panels from a solar farm project. They are commercial grade 320 watt panels for \$189 each. They have 100 to sell. I read a post on DR1 that stated solar panels are duty free. Not sure exactly what I will do but I will go solar. Also is anyone familiar with.

However, prices aren't always simple—they vary depending on size, materials, certifications, and location. Let's break down what really goes into the cost and whether it's worth your money. The final cost of a solar container system is more than putting panels in a box. This is what you're really.
