

# **Container solar solutions EPC service price in Canada**

## Overview

---

Who is solar EPC?

Solar EPC has been experiencing rapid growth, and it is said to be one of the fastest-growing solar installation companies in Canada. They provide a complete range of services including project engineering, procurement, and construction work all over the world.

How does solar EPC conduct business?

From employees to vendors to business partners, Solar EPC conducts business fairly, impartially and ethically. Our goal is to be our customers' preferred supplier into each successive project. To reach our goal we must deliver an excellent quality product, on time, every time.

Why do you need an EPC?

Our EPC will deliver the best LCOE, incredible performance and all in excellent quality, and help to ensure your project is delivered on time, on budget and with the high performance level.

What does an EPC prime contractor do?

· Work as an EPC prime contractor or a sub-contractor · Provide design to optimise the performance and reduce the cost · Project engineering · Procurement of PV modules and BOS component · On-site inspection and supervision · Construction support and planning · Project management and planning
