

# **Containerized battery storage EPC service price in Saudi Arabia**

## Overview

---

Does KSA have a storage service agreement with SPPC?

Each SPV will enter into a 15-year Storage Services Agreement with SPPC. As part of Vision 2030, KSA aims to supply 50% of its electricity from renewable energy by 2030 and has set a clear plan to transition its energy mix towards solar, wind and other renewable energy sources.

How much is the EPC contract worth?

The EPC contract value is over \$2bn, according to estimates from regional projects tracker MEED Projects. The scope includes the construction of bess substations and associated infrastructure. The main applications for the planned bess facilities include load shifting, black start, frequency regulation and voltage support.

What is storage service contract with SPPC?

Successful candidates will be granted 15-year Storage Service contracts with SPPC for respective projects they develop, featuring an output and storage capacity of 500 MW/2,000 MWh at various locations in the country. In addition, the bidders will have 100% equity in projects developed by SPV companies.
