# **Containerized microgrid quotation in Canada 2025**

## Overview

---

### How big is the microgrid market?

The microgrid market size is forecast to increase by USD 41.38 billion at a CAGR of 16.4% between 2024 and 2029. The market is experiencing significant growth due to the increasing demand for reliable and resilient power infrastructure, particularly in regions prone to power outages and grid instability.

### Why is the microgrid market growing?

The market is experiencing significant growth due to the increasing demand for reliable and resilient power infrastructure, particularly in regions prone to power outages and grid instability. Microgrids offer an attractive solution, enabling local energy generation and consumption, and ensuring uninterrupted power supply during grid failures.

### Why do we need a microgrid?

Microgrids offer an attractive solution, enabling local energy generation and consumption, and ensuring uninterrupted power supply during grid failures. This trend is further fueled by rapid technological advancements, including energy storage solutions and smart grid technologies, which enhance microgrid efficiency and capabilities.
