

Containerized microgrid turnkey solution price in Australia

Overview

How can a fully integrated microgrid benefit your business?

A fully integrated microgrid will significantly improve the energy cost profile of your business, lowering your energy bills. Throughout Australia, we specialise in providing microgrid solutions for a range of site, ranging from commercial centres to industrial depots to residential estates / communities.

How does a microgrid work?

The microgrid can be configured to consider incoming weather system reports, and where it determines there is a risk to power availability at the site, it then switches into Island Mode prior to the weather system impacting the site and potentially triggering a grid outage.

Why should you choose UCS for a microgrid project?

Microgrids are complex and few companies have the in-house engineering and delivery capability to make the project come to life. Equally, UCS is one the only companies that can demonstrate real customer examples of sustainable energy focused microgrids that we have deployed.

Containerized microgrid turnkey solution price in Australia
