

Containerized renewable power quotation in Canada 2025

Overview

How is my personal information collected on the 2025 call for power?

The personal information is collected for the purpose of providing email updates on the 2025 Call for Power. If you have any questions concerning how your personal information is handled, please contact 2025Call@bchydro.com. The 2025 Call for Power is a competitive procurement process for clean and renewable energy.

What is the Canadian power industry retrospective?

This publication is our tenth annual Canadian power industry retrospective. It is intended to provide an overview, at both the regional and national levels, of the most significant developments in the Canadian power sector, and associated emerging energy sectors, in 2024. Get the latest legal and business insights sent to your inbox.

What is the future of the Clean Electricity Regulations?

Nevertheless, provinces such as Alberta and Saskatchewan maintain that the Clean Electricity Regulations encroach on the province's jurisdiction over electricity systems within their borders. With a federal election in 2025, the future of the Clean Electricity Regulations remains uncertain.

Could CANDU reactors help reduce emissions?

The country hopes to reinforce its leadership in nuclear power through a series of investments in CANDU reactors as well as small modular reactors (SMRs), which could play a large role in reducing emissions in industrial processes like mining as well as supplying power to power-intensive data centres.

What CCUS projects are happening in Canada?

Canada has some of the most advanced CCUS projects in the world, including the Boundary Dam project in Saskatchewan and the Alberta Carbon Trunk

Line. Grounded in these innovative projects, Canada's capture capacity is projected to grow from the current 4.4 Mt of CO₂ mitigation per year to 16.3 Mt of CO₂ per year by 2030.

Will a new federal government repeal the Clean Electricity Regulations?

With a federal election in 2025, the future of the Clean Electricity Regulations remains uncertain. A new federal government could repeal them in favor of stronger provincial control over the electricity sector, which may reduce such constitutional concerns. [Read more here:](#)
