BSL Eco Energy stands out as a prominent Solar PV EPCC Service Provider in Malaysia. We are also recognized as a reliable Solar Power Energy System Company, offering complete EPCC services for solar installations of all sizes. Whether for homes or large-scale solar farms, our solutions cover every.

Established in 2021, Founder Energy Sdn Bhd specializes in implementation of solar photovoltaic projects for large scale solar, commercial, industrial and residential. As a subsidiary of Reservoir Link Energy Berhad, we are a pure-play, end-to-end EPCC solutions provider for solar PV facilities in.

As a manufacturer, supplier, and installer of solar panels, solar EPC, rooftop solar plants, solar water heaters, solar pumps, solar lights, solar EV charging stations, and solar power plants, we cater to diverse energy needs across Malaysia. Our expertise lies in designing and implementing.

But time isn't the only consideration factor for an EPCC specialist, finesse in financing is also just as important – where our prices are competitive and also having the financing backing to support your endeavour. More than just an EPCC specialist. Plant management: operations and maintenance. Who is founder Energy Sdn Bhd?

Established in 2021, Founder Energy Sdn Bhd specializes in implementation of solar photovoltaic projects for large scale solar, commercial, industrial and residential. As a subsidiary of Reservoir Link Energy Berhad, we are a pure-play, end-to-end EPCC solutions provider for solar PV facilities in Malaysia.

Is solar a good alternative to conventional electricity production in Malaysia?

Solar in Malaysia turns out to be a great alternative to conventional electricity production. With 12 hours of daily sunlight exposure throughout the year, it's as good as any exposure you can get elsewhere on earth. Malaysia is also supportive of the move towards green energy.

What does an EPCC do?

As an EPCC (or EPC) specialist, it's our job to deliver outstanding engineering work and safety performance at every level to ensure you achieve your solar ambitions. Because sustainability is a continuous journey and we're with you every step of the way. EPCC = Engineering, procurement, construction and commissioning. Solar PV engineering.

How much does a 4kWp solar panel installation cost?

On average, a 4kWp solar panel installation will cost you around RM 55,000. Factors like the type of solar panels, size and services involved will influence the final amount. Before you commit to solar panel installation, it's wise to seek consultation with our company.
