Orient Energy Systems Pakistan (Pvt.) Ltd. provides complete solar EPC (Engineering, Procurement and Construction) turnkey solutions ranging from project sizes of 100 kW and beyond for industrial and commercial sectors. We specialize in grid-tied solutions which saves customer from high electricity.

At the head office of Husaini Blood Bank in Karachi, adding a new 100 kW solar system to the existing 100 kW setup has doubled the facility's capacity to 200 kW, improving business viability amid rising grid electricity prices. This solar expansion not only cuts energy costs but also enhances.

The Company offers Design, Detailed Engineering, Procurement, Installation and Commissioning services under Turnkey Solar EPC Solutions for Utility scale Ground-mounted Rooftop and distributed Solar Parks, CAPEX as well as OPEX projects. Business Model we Offer: Capex (Capital Expenditure) is a. What are solar EPC services?

We offer a range of comprehensive and tailored solutions, including solar panel installations, energy storage systems, and efficient grid integrations. From meticulous planning to on-site installation, our Solar EPC services promise turnkey solutions, harnessing the power of the sun for a brighter, cleaner tomorrow.

Who is solar energy solution provider in Pakistan?

We are a profound solar energy solution provider in Pakistan with decades of experience and unwavering commitment to innovation, and reliability. Embrace sustainable living with our Residential Solar Solutions, tailored to meet the energy needs of your home, providing clean power and reducing your environmental footprint.

Who is Pak green solar solutions?

With years of experience and a proven track record, Pak Green Solar Solutions offers turnkey solar energy solutions that encompass every aspect of solar project development. From initial site assessment to system commissioning, our team of experts ensures seamless project execution.

Why should you choose Pak green solar solutions?

Solar plants provide energy independence, especially when paired with battery storage. This allows users to generate and rely on their own power, reducing vulnerability to rising electricity costs and grid outages. Pak Green Solar Solutions is a leading name in Pakistan's renewable energy sector, specializing in mega-watt scale solar power systems.

Why did Pak green solar invest 300 kWp solar power plant?

This investment not only bolsters long-term profitability but also aligns the mine's operations with environmental sustainability. Pak Green Solar has successfully installed a 300 KWp solar power plant to support Shanghai Industries (Pvt) Ltd at Hub River Road, Sindh Industrial Trading Estate, Karachi, Sindh, Pakistan.

Why are large-scale renewable installations a key area for EPCs?

Large-scale renewable installations allow industries to reduce operating costs, increase energy reliability, and meet regulatory or corporate sustainability targets. This sector is a key area for EPCs because of the scale of energy required and the trend toward carbon reduction in heavy industry.
