

# Containerized solar power plant quotation in Argentina 2025

✓ LIQUID/AIR COOLING

✓ PROTECTION IP54/IP55

✓ PCS EMS

✓ BATTERY /6000 CYCLES

## Overview

---

How many solar panels will Argentina install in 2024?

Argentina installed 307 MW of solar in 2024, bringing its total PV capacity to 1.67 GW by year-end, according to energy market operator Cammesa. Verano Energy, a renewables developer headquartered in Chile, has started building a 200 MW solar project in western Argentina. The installation is due for completion and connection before the end of 2025.

Which solar projects are coming to Argentina in 2022?

For instance, in February 2022, the state-owned oil and gas utility firm, YPF, started constructing the 300 MW Parque Solar Zonda project. The country has several solar PV projects in the pipeline and planning stages, which are expected to significantly boost the growth of the solar energy market in Argentina.

How much solar energy does Argentina produce in 2021?

With solar energy generation in Argentina increasing by more than 100-fold in just five years, the country generated approximately 2.19 TWh of solar energy in 2021, up from 16.4 GWh in 2017, representing a 63% increase in solar energy production in Argentina.

Is solar power a viable option in Argentina?

More than half of Argentina's territory receives annual average sunlight over 3.5 kWh/m<sup>2</sup>, making solar PV a technically viable option to match the higher electricity demand. In 2021, solar power accounted for more than 12.7% of total renewable power in Argentina, with the majority being generated through solar PV.

Why is solar technology becoming more accessible in Argentina?

This cost reduction has made solar technology, especially solar PV technology, more accessible in Argentina, with a total solar PV installed capacity of 1,060

MW in 2021. The growing electricity demand is also a major factor driving the market's growth.

When will a solar farm be commissioned in Argentina?

In December 2021, Argentine power producer Genneia SA started the construction of the 80 MW Sierras de Ullum solar farm. The USD 60-million project is expected to be commissioned by the end of 2022. Similarly, in February 2022, YPF Luz started the construction of the 100-MW Zonda solar farm project in San Juan.

## Containerized solar power plant quotation in Argentina 2025
