## **Cost for solar panels and roof**

## Overview

---

How much do solar panels cost?

The average cost to install solar panels in the United States is about \$12,000 after federal tax incentives. On the low end, you can install a smaller system for around \$5,000, while a high-priced Tier 1 solar panel system can cost \$40,000 or more. There are additional costs that go into an installation project beyond the price of panels.

How much does a Tesla solar roof cost?

A Tesla solar roof costs \$22 to \$45 per square foot, which includes the solar roof tiles, a Powerwall, roof and site repairs, and complete system installation. A 9.45 kW solar system installed on a 1,800 square foot roof costs between \$39,600 and \$81,000.

How much do solar panels save?

An average home solar panel system can save between \$1,000 and \$1,600 per year on electricity bills depending on the state's net metering policy and the home's energy consumption.
