

Cost of solar panels for my house

Overview

How much does a home solar system cost?

According to the SEIA, home solar systems have an average price of \$3.24 per watt in the U.S. before incentives. Comparatively, our team found an average cost per watt of \$3.10 based on our survey responses. Note that system pricing can vary based on the solar panel and equipment brand, installer, location and more.

How much do solar panels cost?

The price of solar panels changes depending on where you live, but the average for installation is just under \$29,000 or \$2.75 per watt. On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar. Dion in Nevada said their 10-kW system cost about \$20,000, which is about the national average price for a 7-kW system.

How much does a commercial solar system cost?

Commercial solar installations are a great way for companies to lower energy costs. Generally, installing solar panels on businesses costs a bit less per watt because the systems are larger, but the total costs will be higher. In 2025, the average cost for commercial solar panels is just about \$2.00 per watt.

How much do solar panels cost for a 2500 sq ft house?

How much do solar panels cost for a 2500 sq. ft house?

For a 2,500 sq. ft home, expect to pay \$31,000–\$33,000 (\$21,700–\$23,100 after tax credit) for an 8–9kW system. At this size, spending more on efficient monocrystalline panels often makes sense because you can generate more power with fewer panels.

How much does solar cost per watt?

For reference, the national average cost of solar panels is \$3.03 per watt.

Solar rebates help make solar more affordable by directly lowering the upfront cost of a solar installation. If you have access to solar rebates, consider yourself lucky! They are few and far between these days.

How much does solar installation cost?

On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar. Dion in Nevada said their 10-kW system cost about \$20,000, which is about the national average price for a 7-kW system. What else affects solar installation costs?
