

Custom marine products solar reviews

Overview

Are marine solar panels a good source of electrical power?

Marine solar panels are an excellent source of electrical power for your cruising sailboat or power boat (or camper van or houseboat or off-grid home). We at Custom Marine Products have developed numerous approaches to installing marine solar systems easily and cost effectively. Here is our full line of solar panels.

Do marine solar panels ship internationally?

Watch our video covering all the basics of marine solar systems go here for solar system design worksheet and info and Call any time with questions 773-965-2546 or email info@custommarineproducts.com FAQ Solar Panel Prices and Stats Products usually ship day after payment domestically. And yes we do ship internationally.

Can solar power be used on a commercial vessel?

Commercial Boats and Ships - Solar power is an excellent way to reduce costs on commercial vessels by significantly reducing the load on the onboard power generator. We have designed solar systems to supplement power to the onboard appliances.
