

Solar360 Mobile Energy

Customized container solar mounting quotation for Germany project

Overview

Why should you choose knig mounting system for solar farms?

Our KÖNIG MOUNTING SYSTEM for solar farms is one of the lightest and at the same time most installation-friendly systems on the European market. In addition, by using CO₂-reduced steel, you have the option of taking a sustainable approach and reducing your ecological footprint.

What is a two-post system for ground-mounted PV-systems?

The TWO-POST SYSTEM for ground-mounted PV-systems from KÖNIG is equally suitable for both horizontal and vertical module alignment and is configured in its dimensions to suit the project. A low number of parts, the use of identical components, and a foolproof connection system reduce susceptibility to errors.

Where are knig mounting systems made?

In addition to drywall profiles and accessories, complex punched parts are manufactured for the German and international building materials wholesale trade at the headquarters in Moringen. Thanks to our extensive expertise in profile and punching technology, we can produce our KÖNIG MOUNTING SYSTEMS with excellent handling.
