# **Customized portable solar solution EPC service price in Cyprus**

## Overview

---

Where can photovoltaic panels be installed in Cyprus?

Photovoltaic systems can be installed on flat and inclined roofs and on the ground. Our team can visit the place where you want the solar panels to be installed, evaluate the amount of space, sun exposure and possible shading and suggest the best place so that you make the most out of your photovoltaic panels in Cyprus.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

Why should you choose smart solar Cyprus?

Learn why Smart Solar Cyprus stands out in the solar industry. Gain confidence from our track record of satisfied customers. Smart Solar Cyprus is your all-inclusive solar partner, managing every detail from A to Z. We take the hassle out of going solar by handling all procurement, permits, documentation, and paperwork.

How does a solar water pump work in Cyprus?

On a sunny day in Cyprus, the water pump can be generated directly from the photovoltaic panels and at other times the energy produced by the panels can be stored in a battery to be used when needed, for example when there is not much sun. Solar pumping is very beneficial both financially and environmentally.

What is the maximum power of a net-billing photovoltaic system in Cyprus?

The maximum power of a Net-Billing photovoltaic system in Cyprus is 8 MW. It

is an extremely beneficial scheme which helps people make a profit by generating and using Renewable Energy Sources. Read more Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption.

What is the maximum power of a net-metering photovoltaic system in Cyprus?

The maximum power of a Net-Metering photovoltaic system in Cyprus depends on the power supply of each building. The maximum power of a photovoltaic system with a 1-phase power supply is 4.16 kW and of a photovoltaic system with a 3-phase power supply is 10.4 kW. What is the power of a Net-Billing photovoltaic system in Cyprus?

## Customized portable solar solution EPC service price in Cyprus

### Gesolar Cyprus - Build and Beyond
