What is solar EPC?

EPC stands for Engineering, Procurement, and Construction of a Solar System. While the term is mainly used in creating commercial projects, nowadays, the term is also used for end-to-end solar installation services for residential projects. In solar EPC, the solar company creates the design of your solar system based on your space and needs.

Is Indian solar EPC a good investment?

Indian Solar EPC (Engineering, Procurement, and Construction) services sector has seen robust growth over the past decade with the support of government incentives, policy efforts like the National Solar Mission, and falling prices of solar panels.

Do you use your own solar PV modules in your EPC projects?

We primarily use our own manufactured solar PV modules in our EPC projects. Design & Engineering : Through our in-house teams, we offer engineering solutions to our clients, with an aim to provide quality solar plants aimed at optimizing the life cycle cost of electricity.

Who is servotech renewable power system limited?

Servotech Renewable Power System Limited. is the leading solar EPC Company in India, with over 18 years of experience in the solar industry. We provide complete solar solutions for solar power projects, including engineering, procurement, construction, and commissioning.

How does solar EPC procurement work?

Our solar EPC procurement phase includes experienced project teams to manage the entire process seamlessly, from supplier evaluation and solicitation to equipment manufacturing, delivery and installation to warranty and commissioning. Management is at the very core of EPCM.
