

# **Customized portable solar solution quotation in Italy 2030**

## Overview

---

Discover how to build faster, compliant solar quotes using Italy's local incentive data. Includes Superbonus, Scambio sul Posto, and more. Imagine sending a complete solar proposal—pre-filled with the exact incentives and tariffs for that customer's postal code—in under 10 minutes. How can I get involved in the Italian solar market?

Get involved in the Italian solar market by attending the debut edition of Solar & Storage Italia – taking place 8-9 October. Italy's solar market has grown from 4,000 MW in 2005 to over 26 GW in 2023, driven by strong policies and cutting-edge technologies.

What is the market share of solar energy in Italy?

The solar rooftop segment continues to dominate the Italian solar energy market, holding approximately 63% market share in 2024. This significant market position is driven by several factors, including the country's robust residential and commercial adoption of solar PV systems.

Will SoliTek build a solar PV module factory in Italy?

March 2023: Solitek announced the construction of a solar PV module manufacturing factory in Italy with a 600 MW annual capacity. The company is expected to build its facility in the Benevento region with a EUR 50 million (USD 53.5 million) investment and come online in quarter two of 2024.

Why is it important to apply for a solar permit in Italy?

The Italian solar association Italia Solare has identified an important factor in facilitating growth within this sector – the process for applying for permits to connect PV systems to the grid needs to be made much easier in Italy.

Is Italy a good place to invest in solar?

Previously ranked as Europe's most significant solar market back in 2010, Italy has fallen behind in recent years with average growth rates of just 500

megawatts (MW). The recent boom within the residential property segment, accounting for 87 percent of the cumulative capacity of 25 GW, was brought about largely by Superbonus 110.
