

Customized retractable solar panels quotation for India project

Overview

Are custom solar kits available in India?

Custom Solar Kits have been launched by Loop Solar in India in 2023. There are several advantages to ordering solar equipment as kits. This includes lower equipment cost, availability of capital subsidy by government of India, net-metering readiness, lower transportation cost, lower GST, less hassle and fast installation.

Why should you buy a rooftop solar kit?

Create your own rooftop solar kit - ordering solar equipment as a kit reduces both hassle and cost (equipment cost and transportation cost) without compromising on choice of components for customers or EPC companies. Only the components mentioned in the form above are included in the kit.

How much does a 3 kW solar plant cost in India?

The cost of a 3 KW solar power plant in India depends on your solar panel type, system components, location, etc. However, the average price of this system ranges between Rs.1,90,000 – Rs.2,30,000. If you are eligible for the solar subsidy, you will get Rs.78,000 after installation. What is the cost of a 1 KW solar plant in India?

.
