

# **Do i need permit for solar panels**

## Overview

---

Do you need a permit to install solar panels?

Generally, local governments require a homeowner's solar installer/contractor to obtain a permit for rooftop panels before they can be installed. After the PV system is installed, a professional from the local government will inspect the new array to ensure all building, electrical, and safety codes have been followed.

How much does a solar permit cost?

Some states have set limits on solar permitting costs to encourage renewable energy use: Colorado: The Fair Permit Act caps permitting fees at \$500 for residential solar projects and \$1,000 for commercial solar panel installations. California: California limits the total cost of residential and commercial solar permits.

Do you need a solar permit & inspection?

With this type of work comes safety concerns, and as such, your local government and utility company need to ensure that your solar energy system meets specific electrical and building codes before it goes live. The solar permitting and inspection process is a bureaucratic yet necessary step toward going solar.

What is a solar permit?

A solar permit is a document issued by local municipalities allowing individuals or businesses to install solar panels and PV systems. Solar permits are required in many jurisdictions to ensure solar installations meet local and federal building codes and safety standards. Why do you need a permit for solar?

.

Do I need a permit for a rooftop solar installation?

Permit requirements can also vary between rooftop and ground-mounted installations. If you're installing a large ground-mounted solar installation, you may need to participate in a land use review, but you may not be subject to building or structural permits required for rooftop installations.

What is solar permitting & inspection?

Solar permitting and inspection refer to two processes that need to happen before a solar array can receive permission to interconnect to the grid and start producing electricity. Generally, local governments require a homeowner's solar installer/contractor to obtain a permit for rooftop panels before they can be installed.
