

# Do you save money with solar panels

## Overview

---

### Do solar panels save money?

Following the sharp rise in electricity prices in 2022, solar panels offer homeowners a way to reduce their essential electricity costs and hedge against further energy inflation. Exactly how much money you save with solar – and when you save it – depends on many things, especially how you purchase your system.

### Can a solar loan save you money?

Solar loans can provide immediate energy cost savings by replacing your electricity bill payments with lower solar loan payments. However, in the long run, the interest reduces how much you can save with solar panels.

### Are solar panels good for the environment?

Solar panels aren't just good for the environment; they can also seriously reduce your electric bills. How much money you save varies on several factors, including your location, current energy usage, the size of your solar panel system, and, most importantly, the price you pay for electricity.

### How much can you save on solar energy?

Most solar shoppers save between \$34,000 and \$120,000 on electricity over the lifetime of their solar panel system. However, there's an urgency to act now to maximize savings. Recent federal legislation has eliminated the 30% residential solar tax credit after December 31, 2025—nearly a decade ahead of schedule.

### How can I save money on solar energy?

The most powerful savings tool for homeowners who buy their solar systems is the federal solar tax credit, available for installations through 2033. It allows you to subtract 30 percent of the cost of buying and installing solar heating, electricity generation, and other solar home products from your federal taxes.

How can a solar installer help you save money?

Any solar installer should be able to help you with these three steps: Step 1. Subtract any upfront incentives from the total cost of your solar panel system. Step 2. To calculate the amount you save on electricity, multiply the average monthly cost on your utility bills by 12 to get your annual savings.
