

# **Excel energy solar program**

## Overview

---

What is solar\*rewards®?

Solar\*Rewards® is your opportunity to have solar for your home or business. It's an incentivized program, so annual payments are made to the owner of the solar system in exchange for Renewable Energy Credits (RECs) for the energy produced by the solar system.

How do I get credited for excess solar energy?

Go solar and get credited for any excess energy you produce with this incentivized program. Participate in renewable offerings without installing solar panels on your residence or business. See how you can add excess energy to the grid for future use when you produce your own solar energy.

Does Xcel Energy require a photovoltaic installation supervision certification form?

order for systems to receive incentives. Xcel Energy is required to collect and retain ocumentation that those levels were met. To accomplish this, we require a Photovoltaic Installation Supervision Certification form as part of our application process. The form is downloaded from the online application website and required in.

Can Xcel EnerG turn on my PV system?

PTO) and you may turn on your PV system. You will also receive an email from Xcel Energy stating you no have permission to operate your system. Xcel Energ does not turn on the PV system for you. We do not authorize you to turn on the sy tem prior to the net meter installation. Doing so can cause billing and payment probl ms.

What happens if Xcel Energy buys excess solar energy?

, you will default to a year end payout. Any excess generation from your net metered PV system will be rolled over mon h-to-month and held in a Solar

Bank. Xcel Energy will cash out your Solar Bank at the end of the year, and send you a check for the excess energy. We buy this excess energy at a rate of the average hourly incremental cost of electr.

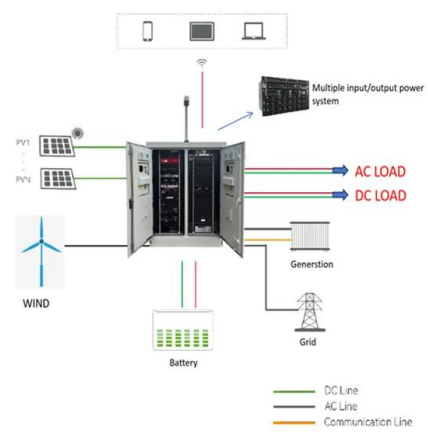

What happens if I subscribe to Xcel Energy?

Once subscribed, customers will begin receiving credits on their monthly utility bill for the solar energy that their subscription contributes to the Xcel Energy grid. Curious about how this fits into your sustainability goals?
