How do I find a reputable solar company?

Looking into solar energy can be daunting. The biggest challenge is finding experts you can trust. Luckily, a solar companies directory can help. It makes finding reputable solar firms easy and quick. This tool helps you match with companies that live up to your standards for quality. Searching for excellent solar panel installers can be tough.

How much does it cost to install solar panels?

The average cost to install solar panels is \$12,600 to \$37,800 for a 6 kW to 12 kW system, after subtracting the 30% federal tax credit. Residential solar panels cost \$3.00 to \$4.50 per watt, including installation. However, the cost of solar panels continues to decrease each year as solar energy becomes more popular.

Where do solar panels work best?

Solar panels work best for homes in sunny areas with southern or southwestern exposure and don't provide as much value in areas that are

regularly cloudy or rainy. How long does it take to install solar panels?

Do solar installers need a license?

In most states, solar installers need to be licensed and insured as solar professionals, although some states don't have specific requirements for installers. You can use our state licensing tool to check if an installer you're considering hiring holds the proper licensing.
