Do I need a license to install solar panels?

An electrical license is an absolute requirement. An installer with the North American Board of Certified Energy Practitioners (NABCEP) Certification is also a major plus (and a requirement to be on Solar.com's platform). When you search for local installers, make sure to ask if they are NABCEP certified or check their website for the logo.

How do I choose a solar company for my home?

When beginning your home solar project, you might start by searching "Solar Providers Near Me." Then, you'll be presented with dozens of different solar companies to choose from. All of these installers will vary in size, equipment offerings, and reputability, and it can take months to line up multiple quotes.

But there's a better way.

How do I find a good solar company?

Once you've narrowed your search down to a handful of certified and licensed solar companies, you'll want to look at their online reviews (like this!). We've found that Google, Yelp, and the Better Business Bureau are the best resources for reviews of solar providers.
