

# Fixed 12v solar panel

## Overview

---

What is a 12V fixed solar panel?

Our 12V fixed solar panels are perfect for caravans, RVs, boats and off-grid applications, ensuring you have access to sustainable energy wherever you are. Fixed solar panels provide a stable, long-term solution for capturing solar energy, making them ideal for installations that don't require movement or portability.

What is a 200W fixed solar panel?

Our high-quality 200W fixed solar panels are perfect for rooftop setups on 4WDs, caravans, camper trailers, and rooftop tents. These panels deliver up to 11.0A of power, ensuring your 12V appliances stay powered on the go.

Why should you choose home of 12 volt solar panels?

At Home of 12 Volt, we specialise in high-quality fixed solar panels designed for those who need consistent and reliable power on the go or in remote settings. Our 12V fixed solar panels are perfect for caravans, RVs, boats and off-grid applications, ensuring you have access to sustainable energy wherever you are.

What is a fixed solar panel?

Fixed solar panels provide a stable, long-term solution for capturing solar energy, making them ideal for installations that don't require movement or portability. Unlike portable panels, fixed solar panels can be securely mounted on various surfaces, providing optimal solar capture and reduced maintenance needs.

What is a 12 volt solar panel?

12 Volt solar panels have a starting voltage of between 17 - 26 Volts. This starting voltage is called Open Circuit Voltage (Voc) and it is the amount of power the panel produces before it enters the solar charge

controller/regulator.

How much does a fixed glass solar panel weigh?

Ultra Slim Fixed Glass Solar Panel is featherlight, weighing in at only 3.6kg – so it's absolutely perfect for installing on the roof of your caravan, 4WD or boat. Keep your off-grid power system charged and running smoothly. Features A-grade monocrystalline cells. Ideal for travel as it only weighs 2.7kg. Uses A-grade monocrystalline cells.
