

Solar360 Mobile Energy

Flexible solar panels uk

Overview

What are flexible solar panels?

Flexible solar panels offer a convenient and lightweight way to access off-grid energy. Getting the right size, height and weight to supply off-grid power for your leisure vehicle or craft can be a particular problem but our flexible solar panels for campervans, caravans, motorhomes and marine craft are an easy and convenient solution.

Why should you choose flexible solar panels?

Flexible designs of solar panel allow them to curve to the natural shape of any roof. This unique quality allows solar panels to be installed where previously it would not be possible, like boat decks, biminis or curved motorhome roofs.

How much do flexible solar panels cost?

The cost of flexible solar panels will depend on whether they're being used to power a house or a vehicle. To help, and give you a better idea of what you can expect to pay, we've broken down the cost by roof size and by vehicle size in the sections below. Flexible solar panels will typically cost you £200-£300 per square metre.

What is a semi-flexible solar panel?

A semi-flexible solar panel is somewhere between a flexible solar panel and the rigid, higher-efficiency solar panels you're more likely to see on the roofs of UK homes.

Are flexible solar panels a good choice for a campervan?

Getting the right size, height and weight to supply off-grid power for your leisure vehicle or craft can be a particular problem but our flexible solar panels for campervans, caravans, motorhomes and marine craft are an easy and convenient solution. Flexible solar panels bring the benefits of: Light, wafer-thin backing.

Can you use flexible solar panels to power a home?

*This is why using flexible solar panels to power the entire energy needs of a home isn't feasible. The average two- to three-bedroom home in the UK will need a solar system of around 3kW (or 3,000W) to support its needs. Flexible solar panels are usually only available with a panel power of 100W, so you'd need at least 30 of them.
