At SCS Australia, we provide advanced solar skid shipping containers designed to deliver reliable, renewable energy wherever you need it. Perfect for remote projects, off-grid living, and temporary sites, these containerised solar systems combine durability, portability, and sustainable.

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions.

A Containerised Off-Grid System comes with up to 107kW of solar panels on SMA TriPower solar inverter (s), up to 320kWh of Lithium batteries and up to 12 x SMA Sunny Sunny Island battery inverter/charger. These are configured as 3 phase systems inside an air-conditioned and insulated shipping.

Foldable Design: Standard container extending 40 feet in length is capable of holding 116 m of solar panels (57.6 kW capacity) and will therefore cut the shipping volume by 50% as compared to fixed systems. Inland Transport Compliance: Pre-certified for road weight across all states with no permits.

Fleet Containers is a leading provider of innovative solutions for shipping containers, and we are proud to offer shipping container solar panels to harness the power of renewable energy. We understand the growing importance of sustainability and the need for eco-friendly solutions in various.

Our offgrid solar containers are designed to be a portable system to enable power on site quickly and easily. If you are using the container as a permanent power supply, an electrician will be required to install suitable earthing & testing Our offgrid shipping containers are a self contained. How

many solar panels can be installed in a shipping container?

These are configured as 3 phase systems inside an air-conditioned and insulated shipping container. Containerised systems are manufactured and tested at RPC to reduce installation time and cost. You would need a very large roof or ground mount frames to accommodate up to 288 solar panels.

What are shipping container solar panels?
