Are solar panels a fraud or a deceptive business?

Updated on: September 19, 2024 / 5:50 PM EDT / CBS New York NEW YORK - The Legal Aid Society has filed a lawsuit accusing five solar panel companies of deceptive business practices and fraud. Lawyers say the companies work in tandem to target seniors and low-income residents with misleading advertising and miscalculations of cost.

Should I file a lawsuit against a solar panel company?

Consulting with an attorney specializing in solar panel litigation can help determine the best approach for your case. Ongoing lawsuits show that homeowners have strong cases against lenders when misrepresentations and contract breaches happen. If a solar company wronged you and is now out of business, you may have legal options.

What is solar panel fraud?

While solar power promises a greener and more sustainable future, a shadowy menace has emerged within the industry – solar panel fraud. These deceptive practices not only undermine the growth of renewable energy but also preys on unsuspecting consumers, particularly targeting vulnerable populations such as elderly victims and disabled veterans.

Who is liable for solar panel fraud?

Solar panel fraud doesn't stop with the companies directly involved; lenders also find themselves liable. Sunlight Financial, Vision Solar's lender, recently declared bankruptcy, leaving consumers in a precarious situation.

Was vision solar a scam?

But the company is accused of building its success on fraudulent, deceptive, and unfair practices. According to the lawsuit, Vision Solar salespeople used

high-pressure sales tactics to convince homeowners – including low-income, disabled and elderly individuals – to purchase or lease solar panel systems.

What happens if you finance a fraudulent solar project?

Lenders may face legal consequences for their role in financing alleged fraudulent solar ventures, adding financial losses to the growing list of victims, and attempting to collect debts from contracts that were under, or never performed.
