# **Government subsidy for collapsible solar container in Serbia**

## Overview

---

**Subsidies:** The Serbian Ministry of Mining and Energy provides subsidies covering up to 50% of installation costs for solar projects. Local municipalities often provide additional incentives, especially for systems of 6 kW or less.

**Subsidies:** The Serbian Ministry of Mining and Energy provides subsidies covering up to 50% of installation costs for solar projects. Local municipalities often provide additional incentives, especially for systems of 6 kW or less.

To encourage solar adoption, the Serbian government and commercial banks offer various financial supports for households that switch to renewable energy. **Subsidies:** The Serbian Ministry of Mining and Energy provides subsidies covering up to 50% of installation costs for solar projects. Local.

In a significant stride towards renewable energy adoption, the Serbian Ministry of Mining and Energy is offering substantial subsidies, extending up to 100 percent, for the installation of solar panels in public spaces. Specifically, an allocation of 168 million dinars, equivalent to about.

The Ministry of Mining and Energy of Serbia will launch a public call for subsidies for households to implement energy efficiency measures including thermal insulation and installation of new windows, doors and solar panels. The public call is intended for local authorities, which should later.

The Energy Efficiency in Public Buildings project is a €77 million investment in the energy-efficient rehabilitation of public buildings to tackle this need head-on. It includes the rehabilitation of 35 public buildings, installation of solar panels on 125 public buildings and the piloting of one.

The National Renewable Energy Action Plan (NREAP) sets a target of 27% of energy consumption from renewable sources by 2020, with an increased target of 50% by 2030. To achieve these goals, the government has introduced feed-in tariffs, tax incentives, and favorable loans to attract domestic and.

The Law on the Use of Renewable Energy Sources was amended, and several

new bylaws were adopted, including the long-awaited decree that regulates balancing responsibility, writes Tamara Zejak, Senior Lawyer at Petrikić & Partneri AOD in cooperation with CMS Reich-Rohrwig Hainz in her op-ed. As a.

## Government subsidy for collapsible solar container in Serbia

### [Solarcontainer in use: Using mobile solar systems](#)
